

# SMART™

## Satellite

- communications you can count on in any emergency;

## Mutual

- interoperable between agencies;

## Aid

- providing assistance whenever and wherever needed;

## Radio

- voice communication reaching out to those who need to know;

## Talkgroups

- sharing critical information to get the job done effectively and efficiently.

## SMART™ Features

- Pioneered by the Department of Justice (DOJ) and the Federal Bureau of Investigation (FBI) in 2007
- Operates on SkyTerra Communications' (SkyTerra) satellite communications network
- Immune to terrestrial network congestion and destruction; enables talkgroup members to communicate
- Offers one-to-many, push-to-talk, 'dispatch style' communications
- Ability to handle up to 9,999 users
- Connects government and public safety agencies nationwide
- Public safety personnel enrolled in one region are able to quickly join a region(s) outside their regular jurisdiction should the need arise
- All 50 states, the District of Columbia, the U.S. Virgin Islands and Puerto Rico have access to at least one nationwide or nine regional SMART programs
- SMART programs are made available 'at no additional cost' to SkyTerra Push-to-Talk (PTT) customers\*
- SMART programs are providing federal, state, local and tribal interoperability on a nationwide network at the national and regional level, and are managed by federal, state and local agencies
- International interoperability possible via SMART program

\* SMART programs will be made available without additional cost to existing and new SkyTerra Push-to-Talk (PTT) customers who have an active service agreement with SkyTerra on applicable dispatch service rate plans and with the approval of the specific talkgroup administrator.
