## Overview

The SATRAD-CH (control head) is designed to amplify the audio of the SATRAD-G2 in the cab of a vehicle. It can also turn off the external speaker and use only the handset speaker.

## Operating Instructions

1. Connect the handset to the control head.
2. Switch the power switch to "ON". Observe the indicator light should be on.
3. Adjust the speaker volume to the desired level (minimal volume is fully counter-clockwise).
4. Press and hold the "PWR" button on the side of the handset.
5. Allow the system to boot up
6. Using the handset select the correct talk group.
7. Depress the PTT button (push to talk), and wait for the signal and begin talking. When finished talking release the PTT button.
8. To turn off the speaker and use only the handset turn the power switch on the control head to off.
